Portfolio: <https://portfolio-website-ten-omega-74.vercel.app/> | X / Twitter: @faithbuilds001

PROFESSIONAL PROFILE

Full-stack developer with nearly two years of experience, including client project work, and a 200-level Mechatronics Engineering student at the Federal University of Technology, Minna. Builds responsive web applications with the MERN stack and works with TypeScript, Firebase, Drizzle ORM, Supabase and PostgreSQL. Driven by creating reliable digital products and exploring practical AI integration.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, React, Next.js, Node.js, Express.js
Web & Motion: Vite, Tailwind CSS, GSAP, Framer Motion, HTML5/CSS3, Lucide React
Data & Services: MongoDB, Firebase (Auth/Firestore), Supabase, PostgreSQL, Drizzle ORM, REST APIs

SELECTED PROJECTS

BLUCABANA | Frontend & Motion Engineer

Stack: React, TypeScript, Tailwind CSS, GSAP, Framer Motion, Lucide React

Live: <https://blucabana-website-3lsyfw1jv-faith-devstacks-projects.vercel.app/>

- Premium coffee and restaurant hospitality website concept focused on immersive visual storytelling.
- Engineered scroll-scrubbed frame-based hero reveal sequence and cinematic visual reveals.

SUBTRACK | Full-Stack Subscription Management App

Stack: React, TypeScript, Vite, Tailwind CSS, Firebase Auth & Firestore

Live: <https://sub-track-alpha.vercel.app/>

- Centralized dashboard for tracking recurring expenses, renewal timelines, and monthly spending.
- Built custom subscription lifecycle manager, category filtering, and analytics summaries.

PACE | Full-Stack E-Commerce Platform

Stack: React, Node.js, Express, MongoDB, REST APIs

Live: <https://dr-tee-frontend.onrender.com/>

- Full-stack shopping application with persistent cart storage, checkout pipeline, and status tracking.
- Designed modular REST endpoints for catalog queries and real-time inventory checks.

EDUCATION

Federal University of Technology, Minna (FUT Minna) | Expected: 2029

B.Eng. in Mechatronics Engineering (200 Level) | Lagos & Minna, Nigeria

ADDITIONAL INFORMATION & INTERESTS

Technical Interests: Scalable full-stack web applications, AI integration, robotic systems & automation.

Communication: Fluent in English | Availability: Open for Junior / Mid Full-Stack Roles and Projects.
